MAR 21 2008

Class 2 Permit Modification Request:

## "Processing of 4.2-Inch (") HT Mortars"

UTAH DIVISION OF  
SOLID & HAZARDOUS WASTE

<b>What is the permit modification about?</b>	<p>TOCDF has completed destruction of containers and warfare munitions containing Sarin (GB) and VX. TOCDF is now in the process of destroying Mustard-filled munitions and containers. The current Mustard "Campaign" is the third and final agent demilitarization campaign TOCDF plans to undertake.</p> <p>TOCDF plans to be processing 4.2" HT Mortars in early December of 2008. These munitions will be processed a manner similar to the millions of munitions that were processed during the Agent GB and VX campaigns. Energetic components will be removed and process in the Deactivation Furnace System, the munitions will then be drained of their agent fill, the drained agent will be transferred to storage tanks and fed to the Liquid Incinerators. The partially drained munitions will be processed in the Metal Parts Furnace.</p> <p>Some HT mortars are known to contain a paste-like un-drainable film which has been shown to contain mercury. The low incidence and small amount of this film, coupled with the ability of TOCDF to monitor the MPF exhaust gas for mercury and the past experience of TOCDF to manage MPF mercury emissions such that exceedances of the Resource Conservation and Recovery Act (RCRA) Permit specified mercury performance standard will be minimized.</p> <p>This permit modification request proposes revisions to the TOCDF RCRA Permit that would allow MPF-processing of the last remaining DCD stockpile of 4.2" HT Mortars.</p> <p>This permit modification request is identified by the alphanumeric designation TOCDF-MPF-02-0960.</p>
<b>When is the Public Meeting?</b>	<p>A public information meeting on this permit modification request will be held at 6:00 p.m. on Wednesday, April 16, 2008 at the Tooele Chemical Stockpile Outreach Office, 54 South Main Street, Tooele, Utah, 84074.</p>
<b>Where can I find a copy of this permit modification request?</b>	<p>A copy of this permit modification request is available for review by the general public during regular business hours at:</p> <ul style="list-style-type: none"><li>→ <b>Tooele Chemical Stockpile Outreach Office</b>, 54 South Main St., Tooele, UT 84074</li><li>→ <b>Tooele City Library</b>, 128 W. Vine Street, Tooele, UT 84074</li><li>→ <b>Utah Division of Solid and Hazardous Waste Offices (DSHW, Dept. of Environmental Quality)</b>, 288 North 1460 West, Salt Lake City, UT 84116</li></ul>
<b>Who can I talk to about this?</b>	<p>The TOCDF point of contact is Mr. Trace Salmon at (435) 833-7428. The Permittees' (U.S. Army Chemical Materials Agency/EG&amp;G Defense Materials) compliance history during the life of the permit being modified is available from the State of Utah (contact Mr. Tom Ball of the Utah Division of Solid and Hazardous Waste at (801) 538-6170).</p>
<b>How long is the comment period?</b>	<p>The public comment period for this permit modification request lasts a minimum of 60 days and begins Thursday, March 20, 2008 and will end Monday, May 19, 2008. Written comments regarding this permit modification request can be submitted to Mr. Dennis Downs, Director, Division of Solid and Hazardous Waste, Utah Department of Environmental Quality, 288 North 1460 West, P.O. Box 144880, Salt Lake City, UT, 84114-4880, and must be received no later than 5:00 pm, Monday, May 19, 2008.</p>

This public notice satisfies requirements of the Resource Conservation and Recovery Act and the Utah Hazardous Waste Management Rules (Utah Administrative Code R315).
